Waste & Recycling Solutions

Portable Compactor with Pendulum Ram for Rolonof System - Suitable for wet waste - Guaranteed 100% Leakproof

Environmental Waste Controls plc are the sole suppliers of Husmann compactors in the UK.

Husmann are a German based company who have been Europe's largest and most successful manufacturer of waste handling equipment for over 30 years.

All our compactors are built to meet Europe's stringent environmental legislation, together with the design and engineering specification to ensure maximum container payloads, our compactors are renowned for sheer quality and installation.

Benefits:

- **Optimum payloads:** An over all reduction in the cost of your waste disposal operation will be achieved, which will result in a reduction of waste collections.
- **Clean & hygienic:** Industry proven 100% leakproof, suitable for wet waste which will assist you with your 'Duty of Care' obligations whilst creating the necessary improvements in your work environment.
- **Odour free:** Innovative "sealed-design" technology provides virtually odour free waste storage.
- **Trouble free:** All our portable compactors are conical in design to aid in the trouble free discharge of waste - this is essential when packing waste at these pressures. Other features include the removal of troublesome limit switches and the use of side hinged doors.
- **Easy to use:** Large filling apertures, pre-full lights, spring balanced covers and many other features results in an extremely efficient and easy to use compactor

Features

- Industry proven 100% leak proof ideal for wet waste.
- High packing weights due to uplifting of the waste caused by the dome shaped rear door.
- Deep ram penetration to maximise payloads.
- Easy feeding due to low filling height.
- No cleaning of charge box required.
- Welded through.
- Corrosion resistant floor plates, hydraulic cylinders and piston rods.
- Trouble-free discharge due to conical design.
- Automatic timer settings.

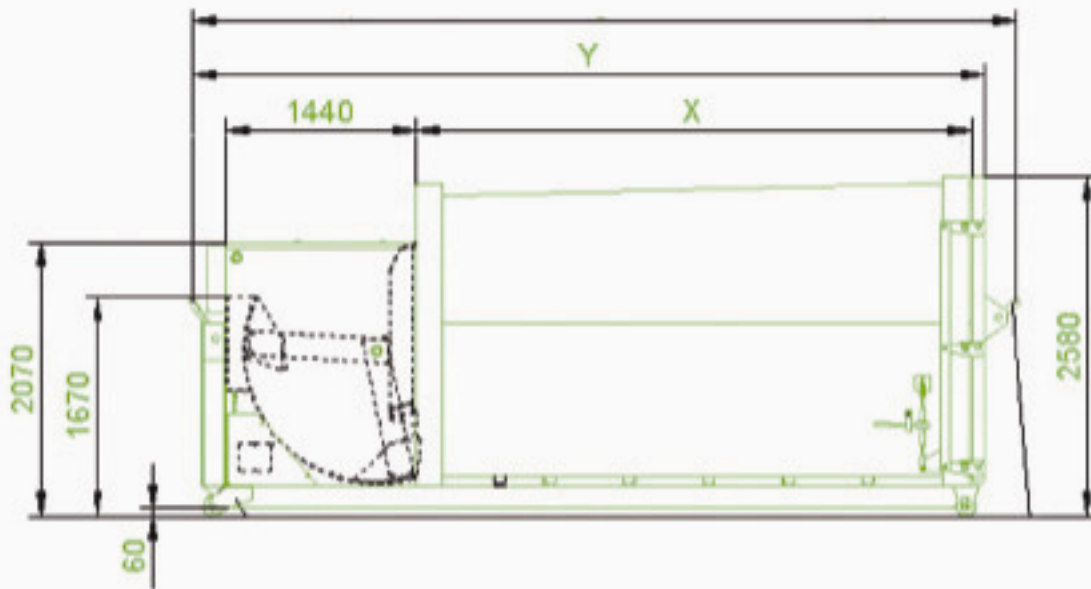

- Advance filling indicators.
- Easy maintenance.
- Robust high quality construction for optimum service life
- Top hinged door with ratchet closing mechanism.

Accessories

A wide range of accessories are available, tailor-made to meet all demands including:

- Spring balanced lids for the filling opening manually or automatically.
- Tipping devices for various compactors.

Applications: Hospitals, Hotels, Homes for the aged, Markets, Factories, Food Producers and Catering establishments

Portable Compactors SPB SW-E - with Pendulum Ram

Model	Capacity m ³	Length mm	Width mm	Height mm	Technical Specification:
SPB 16 SW-E	16	5.200	2.550	2.580	Power: 5.5 kW
SPB 18 SW-E	18	5.600	2.550	2.580	Power supply 400 v, 50 Hz
SPB 20 SW-E	20	6.000	2.550	2.580	Protection 16 A slow
SPB 22 SW-E	22	6.400	2.550	2.580	Compaction force: 310 kN
SPB 24 SW-E	24	6.870	2.550	2.580	Volume per stroke: 1.14 cbm
SPB 26 SW-E	24	7.270	2.550	2.580	Volume per hour: theor. 92 cbm
					Time per working cycle 29 s
					Filling height: 1.670 mm
					filling opening 1.000 x 1.800 mm

Due to continual Research & Development, specification may vary at any time
